Dear Colleague:

I am pleased to provide you with a copy of the Federal Transit Administration's (FTA) FY 1995 "Statistical Summaries." This comprehensive report presents FY 1995 funding data for the FTA's major discretionary and formula grant programs. Usage of these funds is identified by program, program element, urbanized area and state. For a longer range view of Federal transit expenditures, the historical data is also included.

Fiscal year 1995 was an excellent year for mass transit. FTA's grant obligations surged to \$6.4 billion, the highest level ever achieved in the history of the program. Capital obligations rose to a record of \$5.4 billion. Of this amount, \$1 billion was used to finance the purchase of nearly 9,000 transit vehicles, all of which are identified in the report by type and size. Specific information about fixed guideway modernization and new systems expenditures is also cited.

A key factor in the rise of capital obligations is the flexibility provision of the Intermodal Surface Transportation Efficiency Act (ISTEA), which created opportunities for increased funding for transit. Since FY 1992, almost \$2.2 billion in ISTEА flexible funds has been transferred to FTA for use on transit projects.

I hope you will find this document useful and informative.

Thank you for your continued interest in public transportation.

Sincerely,

Gordon J. Linton

INTRODUCTION

The fiscal year 1995 "Statistical Summaries" presents selected analyzed data on the distribution and use of various program funds administered by the Federal Transit Administration (FTA). The programs discussed are the principal source of Federal financial aid to urban and non-urban areas for mass transportation. The data is compiled from the capital, operating and the planning assistance grants awarded to transit authorities, States and other units of local governments. This data is represented in the various tables, charts, and graphs which are identified in the table of contents. Please note that the figures shown on the charts and graphs are lettered and numbered the same as the related tables. Historical data can be found on Tables 17 through 56.

FTA obligated \$6.4 billion for various grants in fiscal year 1995, the highest on record in FTA history. This is up \$1.9 billion more than the previous fiscal year. This sharp upturn in the obligated funds was driven partly by the increased availability of flexible funds transferred from the Federal Highway Administration (FHWA) for mass transit projects. The total amount transferred in FY 1995 reached \$801.8 million which exceeded last year's record level of transfers by \$192.1 million.

Of the total obligated in FY 1995, 85 percent was programmed for capital purposes, 13 percent for operating expenditures, and the remaining two percent for planning assistance. Excluding Washington Metro Rail construction grants, the urbanized areas with populations over 1 million received 77 percent of the total grant funds obligated. Consistent with the increase in capital obligations that are reflected in the data, the number of vehicles budgeted in FY 1995 surged to a total of 6,357 overtaking the record of the highest bus count which was 5,816 in 1974. These figures apply only to the capital and the urbanized area formula programs.

FTA Programs

SECTION 5309 - Capital Program that provides capital funding for fixed guideway modernization, new systems, and bus and bus related projects.

SECTION 5307 - Urbanized Area Formula Program that provides funding for capital, planning and operating projects for urbanized areas (50,000 or more population).

SECTION 5310 - Elderly Persons and Persons with Disabilities Program with funding allocated to the States for capital projects to meet the special needs of elderly persons and persons with disabilities.

SECTION 5311 - Nonurbanized Area Formula Program that funds capital and operating assistance in non-urbanized areas (rural). The Rural Technical Assistance Program (RTAP) also provides funding for training, technical assistance, research and support services.

INTERSTATE SUBSTITUTE TRANSIT - Substitute of transit capital and planning projects for Interstate Highway System projects.

Special Appropriation

Washington, D.C. Metro Rail - Funds provided for the construction of the Washington Metropolitan Area Transit Authority rail system.

and many other techniques and methods necessary to make transit operations more efficient and effective.

AMERICANS WITH DISABILITIES ACT. The Americans with Disabilities Act of 1990 (ADA 42 U.S.C. § 12101 *et seq.*) gives persons with disabilities civil rights protection in jobs, public accommodations and services. In the area of public transportation, the ADA mandates increased accessible and nondiscriminatory service, such as wheelchair lifts on buses, improvements in information dissemination to people with hearing and visual disabilities, and lift-equipped van services for people who cannot use regular wheelchair lift-equipped buses. It also broadens the range of disabilities which must be accommodated, and gives the FTA the responsibility for ensuring that all transit operators, nationwide, comply with the law.

ADVANCED PUBLIC TRANSPORTATION SYSTEMS PROGRAM. FTA has created the Advanced Public Transportation System (APTS) program as part of the U.S. Department of Transportation initiative in Intelligent Vehicle Highway Systems (IVHS). Through APTS, FTA funds research, development, and operational tests of advanced navigation, information, and communication technologies to improve public transit systems. The goal of APTS is the development of a readily accessible body of knowledge about technologies that enhance public transportation and the demonstration of those technologies in operating models.

CLEAN AIR PROGRAM. This program is designed to assist the Nation's cities and transit providers in complying with the Clean Air Act (42 U.S.C. §§ 7401 *et seq.*) Amendment of 1990 and the proposed National Energy Strategy Act through the use of cleaner engine emission systems, such as alternative fueled or clean diesel engine transit buses. The program promotes the goal of the National Transportation Policy to protect the environment and the quality of life of America's citizens.

BUS TESTING. STURRA established a requirement that new transit bus models be tested at the New Bus Model Testing Facilities, owned and operated by the Pennsylvania State University. These new bus models are tested for safety, reliability, performance, structural integrity, fuel economy, noise, and the capacity to be maintained. ISTEA provides for the FTA to fund 80% of bus testing fees. ISTEA also added emission and brake testing requirements and the requirement to test alternative fueled vehicles. FTA is responsible for ensuring that all new transit bus models that are purchased with Federal funds have been tested.

Glossary of Terms

Allocation--An administrative distribution of funds. This is done for funds which do not have statutory distribution formulas.

Apportionment--A law that refers to a statutorily prescribed division or assignment of funds. An apportionment is based on prescribed formulas in the law and consists of dividing authorized obligation authority for a specific program.

Appropriations Act--A law passed by the Congress and signed by the President, which makes funds available for expenditures with specific limitations as to amount, purpose, and duration. In most cases, it permits money previously authorized to be obligated and payments to be made.

Authorization Act--Basic substantive legislation or that which empowers an agency to implement a particular program and also establishes an upper limit on the amount of funds which can be appropriated for that program.

Budget Authority--Empowerment by the Congress that allows Federal agencies to incur obligations to spend or lend money. This empowerment is generally in the form of appropriations from General Revenues to the Treasury. However, for the Discretionary program category, it is in the form of "contract authority" derived from the Trust Fund Resource.

Contract Authority--A form of budget authority that permits obligations to be made in advance of appropriations. The Discretionary Grants program is funded from contract authority, subject to an obligation limitation.

Fiscal Year (FY)--Since FY 1977, the yearly Federal accounting period beginning October 1 and ending September 30 of the subsequent calendar year. (Prior to FY 1977, the Federal fiscal year started on July 1 and ended the following June 30.) Fiscal years are denoted by the calendar year in which they end: e.g., FY 1989 began October 1, 1988, and ended September 30, 1989.

Obligation Limitation--An amount specified in an Appropriations Act that limits the amount of Federal assistance that may be obligated during a specified time period, usually one fiscal year. A limitation on obligations is used to reduce the amount of contract authority available for obligation in the Discretionary Grants (trust fund) program.

Obligations--Commitments made by Federal agencies to pay out money, as distinct from the actual payments, which are "outlays." Generally, obligations are incurred after the enactment of budget authority. The obligations are for the Federal share of the estimated full cost of each project at the time it is approved, regardless of when the actual payments are made or the expected time of project completion.

States--As defined in Chapter 1 of Title 23, the 50 States comprising the United States, plus the District of Columbia, and the Commonwealth of Puerto Rico. However, for the purposes of some programs (e.g., Sections 18, 16, and RTAP) the term may also include territories (Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands).

Urbanized Area--Comprises an incorporated place and adjacent densely settled surrounding area that together have a minimum population of 50,000.

Trust Fund--Accounts established by law to hold receipts which are collected by the Government and earmarked for specific purposes and programs. These receipts are not available for the general purposes of the Government. The Mass Transit Account of the Highway Trust Fund is comprised of receipts from certain highway user taxes (e.g., excise taxes on motor fuels) and reserved for use for transit capital projects and related purposes.

NOTE:

1) TABLE B-1 BREAKS OUT FY 1995 APPROPRIATIONS BY GENERAL FUNDS AND TRUST FUNDS.

2) The Interstate Transfer Substitution program appropriations in FY 1977 through FY 1981 included transit and highway funds. The column above includes only the transit funds. The total appropriations for these years are as follows: FY 1977-\$375 Mill.; FY 1978-\$789 Mill.; FY 1980-\$700 Mill.; and FY 1981-\$865 Mill.

3) RTAP appropriations by fiscal year are: 1987-\$5,000,000; 1988-\$4,750,000; 1989-\$5,000,000; 1990-\$4,985,000; 1991-\$5,000,000; 1992-\$5,000,000; 1993-\$4,250,000; 1994-\$4,613,000; 1995-\$4,612,500

4) Reflects FY 1996 enacted level of \$42 million minus FTA share (\$1.85 million) of \$25 million DOT reduction and a \$378,000 working capital fund reduction.

*After Sequestration

** After Sequestration and Drug Assessment

Washington, D.C. Metrorail Construction

Public Law 96-184, the National Capital Transportation Amendments Act of 1979, also known as the "Stark-Harris Act", provides authorization for up to \$1.7 billion of 80 percent Federal matching funds for the construction of the Washington Metrorail system.

Federal funds under this Act were first appropriated in fiscal year 1983. Through the end of FY 1994, the Congress has appropriated \$5.4 billion for Metrorail construction. The funds available under the Stark-Harris Act permitted completion of 89.5 miles of the Metrorail system as provided under the terms of a Full Funding Grant Agreement executed with the Washington Metropolitan Area Transit Authority (WMATA) in July of 1986. The balance of the \$1.7 billion Stark-Harris authorization was appropriated in fiscal year 1993.

Public Law 101-551, the Amendments of 1990, authorized an additional \$1.3 billion of 62.5 percent matching Federal funds to finance construction of the remaining 13.5 miles of the Metrorail system. Appropriations under this authorization totalling \$346.1 million were provided in fiscal years 1992, 1993, 1994 and 1995.

Note: Congress has authorized: 1970 - \$1.1 billion direct appropriations; 1976 - \$2.2 billion Interstate Transfer; 1979 - \$1.7 billion Stark-Harris; and 1993 - \$1.3 billion Stark-Harris II authorization.

CAPITAL PROGRAM (SECTION 5309)

The Section 5309 program provides funding for the establishment of new rail or busway projects (new systems), the improvement and maintenance of existing rail and other fixed guideway systems, and the upgrading of bus systems. The enactment of ISTEA in 1991 significantly changed the allocation method for fixed guideway modernization funds. Capital assistance grants made to states and local agencies are funded up to 80% of the net project costs, unless the grant recipient requests a lower Federal grant percentage. Section 5309 funds are provided solely from the Federal motor fuel tax, (one and one-half cents) deposited in the mass transit account of the Highway Trust Fund. In FY 1995, the Section 5309 obligations totaled \$2.6 billion, an increase of \$1.1 billion compared to FY 1994. The total number of vehicles budgeted in FY 1995 grew to 1,532 compared to 1,490 in FY 1994.

Three categories comprise the Section 5309 program: 1) Bus and Bus Related; 2) Fixed Guideway Modernization; and 3) New Systems. Under the provisions of the ISTEA legislation, 40% of the Section 3 funds are to be available for fixed guideway modernization; 40% for the construction of new fixed guideway systems or extensions to fixed guideway systems; and 20% for the replacement, rehabilitation, and the purchase of buses and related equipment and the construction of bus-related facilities. Additional information about the three categories is provided below:

BUS AND BUS RELATED

This category includes acquisition of bus and rolling stock and ancillary equipment, and the construction of bus facilities (i.e., maintenance facilities, garages, storage areas, bus terminals and the like). In FY 1995, the bus allocation was \$350.7 million of which about 78% was earmarked by Congress for specific projects. At least 5.5% of Section 5309 funds must be used in non-urbanized areas. In FY 1995, the Section 5309 obligations for bus were \$549.3 million which tops FY 1994 obligations by \$230.6 million.

FIXED GUIDEWAY MODERNIZATION

Fixed guideway modernization funding is allocated by a formula consisting of four tiers. Statutory percentages are established to allocate the first \$497.7 million (1st and 2nd tier) to 11 legislatively specified fixed guideway areas. The next \$70 million is allocated by the urbanized formula program fixed guideway tier factors, with 50% (\$35 million) going to the 11 urbanized areas and 50% (\$35 million) to all other urbanized areas with fixed guideways at least seven years old. Any remaining funds are allocated to all urbanized areas as a whole using the urbanized formula fixed guideway tier factors. Typically funded are infrastructure improvements such as track and right of way rehabilitation, station modernization, rolling stock renewal, safety-related improvements, signal and power modernization. In FY 1995, the Section 5309 obligations for fixed guideway modernization were \$797.6 million, down \$12.3 million from the previous fiscal year.

NEW SYSTEMS

New systems funding is allocated on a discretionary basis and projects must compete for funding using specific criteria including alternative analysis to justify the level of investment involved when starting a new fixed guideway system. Funding for new systems projects is earmarked annually by Congress. In FY 1995, the obligations for Section 5309 new systems were \$1.3 billion, up \$843.1 million from FY 1994.

SECTION 5307 URBANIZED AREA FORMULA PROGRAM

Section 5307 is a formula grant program for urbanized areas providing capital, operating, and planning assistance for mass transportation. This program was initiated by the Surface Transportation Act of 1982 and became FTA's major transit assistance program in FY 1984. The Section 5307 urbanized area formula program provides funding for capital and planning at 80 percent and for operating up to 50 percent. Funds are apportioned to urbanized areas utilizing a formula based on population, population density, and other factors associated with transit service and ridership. Section 5307 is funded from both General Revenues and Trust Funds.

Section 5307 urbanized area formula funds are available for transit improvements for 34 urbanized areas over 1 million population, 91 urbanized areas with populations between 200,000 and 1 million, and 280 urbanized areas between 50,000 and 200,000 population. For urbanized areas over 200,000 in population, funds flow directly to the designated recipient. For areas under 200,000, the funds are apportioned to the Governor of each state for distribution.

In FY 1995, a total of \$3.2 billion of Section 5307 funds was obligated, the highest ever recorded. Of this amount, \$2.3 billion or 74.3 percent was used for capital; \$763.9 million or 24.2 percent for operating; and \$45.8 million or 1.5 percent for planning assistance. In line with the increase in obligations, the total number of vehicles budgeted reached an unprecedented 4,825. There were also 313 buses that were rehabilitated for \$9.8 million. The obligations for operating have settled at about the same levels for the last eight years. Again, flexible funds transferred from FHWA had an impact on the availability of funds for obligation. In FY 1995, a total of \$677.3 million was transferred to Section 5307. As a group, the urbanized areas with population over 1 million were the largest recipients. These areas received a total of \$2.5 billion or 79 percent of the Section 5307 funds. By contrast, this is \$733.9 million more than last year's obligations for this population group.

The total flexible funds obligated were \$759 million, some of which was drawn from the flexible carryover funds. Of the total obligations for capital (planning included), about 32 percent represents flexible funds. The program sources of these obligations are: Congestion Mitigation and Air Quality (CMAQ), \$488.2 million (64.3 percent); and Surface Transportation Program (STP), \$270.0 million (35.6 percent).

SECTION 5310 PROGRAM

Section 5310 makes funds available to meet the special transportation needs of elderly persons and persons with disabilities. These funds are apportioned to the states annually by a formula that is based on the number of elderly persons and persons with disabilities in each state. In FY 1995, \$59 million was appropriated for the Section 5310 program, and an additional \$600,000 in flexible funds were transferred into the program. The program is administered through the states and it is at the state level that specific funding decisions are made.

Capital assistance is provided on an 80 percent Federal, 20 percent local matching basis, except vehicle-related equipment needed to meet Americans with Disabilities Act (ADA) and Clean Air Act Amendment (CAAA) requirements, which is fundable on a 90 percent Federal, 10 percent local matching basis. Those eligible to receive Section 5310 funding include private nonprofit agencies, public bodies approved by the state to coordinate services for elderly persons and persons with disabilities, or public bodies which certify to the Governor that no nonprofit corporations or associations are readily available in an area to provide the service.

The period of availability for Section 5310 funds is one year. Any amount of a state's apportionment remaining unobligated may be transferred to the Section 5311 or the Section 5307 program during the fourth quarter of the fiscal year. In FY 1995, \$2 million was transferred from the Section 5310 program to the Section 5311 program. Any Section 5310 funds left unobligated or not transferred at the end of the fiscal year will be reapportioned among all the states in a subsequent year's apportionment.

Since the program began in 1975, state agencies have obligated over \$600 million for the purchase of vehicles, equipment, or service designed to meet the needs of elderly persons and persons with disabilities. The Section 5310 program has enabled thousands of elderly persons and persons with disabilities to achieve greater mobility and independence.

* FUNDS FOR THE FOLLOWING STATES WERE TRANSFERRED TO THE NONURBANIZED AREA FORMULA PROGRAM FOR OBLIGATION: NEW YORK, \$784,000; MISSISSIPPI, \$175,000; OHIO, \$592,000; WASHINGTON, \$197,655; AMERICAN SAMOA, \$52,083; GUAM, \$131,927; AND NO. MARIANAS, \$51,902.

OBLIGATIONS FOR THE FOLLOWING STATES INCLUDE FLEXIBLE FUNDS:
 ILLINOIS-\$50,000; OREGON-\$335,590; AND VERMONT-\$200,000.

NONURBANIZED FORMULA PROGRAM (SECTION 5311)

The Section 5311 program provides funding for public transportation in nonurbanized areas. From fiscal year 1979, when the program was authorized, until fiscal year 1991, Congress appropriated \$65-75 million annually for Section 18, but since ISTEA was enacted, the annual appropriation has been higher, at 5.5% of the total appropriation for urbanized and nonurbanized areas. In fiscal year 1995, \$132.9 million was appropriated. In addition, since 1984 Section 5311 has been supplemented by funds transferred annually to Section 5311 from the Governor's apportionment of urbanized area formula funds for cities under 200,000. Flexible funds may also be transferred to Section 5311, and in FY 1995, \$8.2 million was transferred.

FTA apportions funds for nonurbanized areas to the states according to a statutory formula based on each state's population in rural and small urban areas (under 50,000 population). The funds are available to the state for obligation for the year of apportionment plus two additional years. The states administer the program in accordance with State Management Plans. Eligible recipients include public bodies and private non-profit organizations. Participation by private for-profit enterprises under contract to an eligible recipient is encouraged.

The FTA financial assistance may be used for capital and administrative expenses, with a Federal share of eighty percent, and for operating expenses, with a Federal share of fifty percent. The state may use up to fifteen percent of its apportionment for program administration, planning, and technical assistance, with no local match required. Coordination with other federally assisted transportation services is encouraged, and income received through purchase of service contracts with human service agencies may be used as local match.

Each state must spend fifteen percent of its apportionment for the support of intercity bus transportation, unless the governor certifies that the intercity bus transportation needs of the state are adequately met.

RURAL TRANSIT ASSISTANCE PROGRAM

Since fiscal year 1987, Congress has appropriated \$4.25 to \$4.6 million a year for the state Rural Transit Assistance Program (RTAP) to provide training, technical assistance, research, and related support services, for providers of rural public transportation. FTA allocates funds to the states using the nonurbanized population based formula along with a floor of \$50,000 to each state, and \$10,000 to each insular area. There is no local share requirement. Additional RTAP funds are used to support a national program, which produces training materials and operates a national resource center.

FUNDING FOR GUAM (\$12,923) AND NORTHERN MARIANAS (\$10,952) WAS TRANSFERRED TO THE NON-URBANIZED AREA FORMULA PROGRAM.

FLEXIBLE FUNDS

The 1991 ISTEA legislation provided flexible funding opportunities to state and local governments allowing them the option of using some FEDERAL HIGHWAY funds for transit projects and vice versa. Over \$70 billion in Federal Highway or transit projects is usable within the six-year life of the authorization at the discretion of state and local officials. Over \$12 billion was available for flexible fund use in FY 1995. These funds can be transferred to Sections 5307, 5310, 5311, 5313(b) and the Interstate Substitute Program to finance transit projects.

In FY 1995, there was a total of \$1.03 billion available flexible funds of which \$801.8 million was transferred in FY 1995. The remaining available \$232 million is the unobligated carryover of prior year transfers. Like the three previous years, CMAQ led in the requests for transfers of flexible funds constituting 60 percent of the funds transferred in FY 1995. Second in demand were the STP funds that represented 25 percent of the transfers. FHWA earmarks were determined at four percent and Interstate Substitute funds as 11 percent.

The flexible fund obligations rose sharply in FY 1995 to \$907.3 million, almost twice the amount of obligations (\$473.8 million) posted in FY 1994. The composition of these obligations is \$494.4 million (55 percent) in CMAQ; \$280.2 million (31 percent) in STP; \$49.4 million (5 percent) in FHWA earmarks and \$83.3 million (9 percent) in Interstate Substitute funds. The FY 1995 obligations represented 234 projects in 39 states compared to 166 in 38 states last year. As in the three previous years, the bus category ranked first in the amount of flexible funds that were used; \$401.1 million or 44 percent followed by 33 percent for fixed guideway; 14 percent for new systems; and nine percent for miscellaneous projects.

The flexible funds transferred from FHWA are drawn from the following sources:

Surface Transportation Program (STP). STP is the largest FHWA flexible funds program. Funding is at 80 percent Federal share and may be used for all projects eligible for funds under current FTA programs excluding Section 5307 operating assistance. In FY 1995, there was a total of \$313.9 million available of which \$112.6 million was comprised of prior year unobligated carryover funds. STP obligations for FY 1995 were \$280.2 million which is 89.3 percent of the STP funds available.

The Congestion Mitigation and Air Quality Improvement (CMAQ) Program. CMAQ funds are used to support transportation projects in air quality nonattainment areas. A CMAQ project must contribute to the attainment of the national ambient air quality standards by reducing pollutant emissions from transportation sources. Aggregately, there was a total of \$801.8 million available transferred flexible funds accounted for in FY 1995 of which \$484.1 million or 60.3 percent was obligated for CMAQ projects. Of the total, \$582.3 million of CMAQ funds available in FY 1995, \$494.4 million or 84.9 percent of these funds were used for transit projects.

Interstate Substitute Funds. While these Highway funds are now eligible for transit use, they are limited to the construction and improvements of fixed guideways, the purchase of rolling stock (buses) and other transportation equipment, and any other project eligible under FTA's Section 5309 capital grant program. In FY 1995, \$83.3 million was transferred to FTA and obligated.

FHWA Earmark. Several transit projects are earmarked under ISTEA Title I as innovative demonstration, congestion relief and intermodal projects. In FY 1995, \$34.1 million was transferred increasing the funds available to a total of \$54.3 million of which \$49.4 million was obligated.

TOTAL CAPITAL AND URBANIZED AREA FORMULA OBLIGATIONS

FISCAL YEARS 1989 - 1995

Figure 30

URBANIZED AREA FORMULA CAPITAL INCLUDES PLANNING

SECTION 5327(c)1 and 5327(c)3 Set-aside

Section 5327(c)1 of the Federal Transit Act authorizes the Secretary of Transportation to use up to one-half percent of the appropriations for the capital, urbanized area formula, nonurbanized area formula; the Washington Metro and Title 23 (Interstate Transfer); and up to three-fourths percent of the capital program to contract with any person to oversee the construction of any major project under such section of the Act. The Project Management Oversight Program (PMOP) provides for the monitoring of a major capital project's process to determine whether a project is on time, within budget, in conformance with design criteria, constructed to approved plans and specifications, and is efficiently and effectively implemented.

Section 5327(c)3 also permits the use of such funds to include safety, procurement, management and financial compliance reviews and audits. Out of the total \$15,599,022 obligated for Section 5327(c)3 activities in FY 1995, \$9,490,261 was obligated for PMOP and \$25,897 for financial management oversight.

INTERSTATE SUBSTITUTE TRANSIT PROGRAM

The Interstate Substitute program was established by the 1973 Federal-Aid Highway Act and amended by subsequent legislation. The law permits State and local officials to withdraw planned Interstate routes, or segments which were within or which connect urbanized areas, and to substitute mass transit or non-interstate highway projects. Withdrawal requests were reviewed and approved jointly by FTA and the Federal Highway Administration (FHWA). Under ISTEA, the provisions for "flexible" funding permit Interstate Substitute Highway funds to be transferred to FTA and used for Interstate Substitute transit projects. In FY 1995, \$83.3 million of transferred Interstate Substitute Highway funds was obligated for New York. Including this amount, the total obligations for Interstate Substitute were \$153,651,070. Please see below for the breakdown of this amount.

Substitute funds may be used for a wide variety of highway and public mass transit projects. Interstate grants for transit projects can finance, for example, the construction and improvements of transit facilities, the purchase of rolling stock and other transportation equipment. The Federal participation of Interstate Substitute transit projects is 85 percent. The level of obligations for the Interstate Substitute transit program reached a peak of \$679 million in FY 1980. Since then, there has been a continuous downward trend in the annual amounts obligated for this program. As the Interstate Highway System itself draws near its completion, substitute projects of either a highway or transit nature have largely been completed, and this is reflected in the lowering level of annual obligations. FY 1995 was the last year in which Interstate Substitute funds were appropriated. Any obligations for subsequent years will be drawn from carryover funds.

<u>URBANIZED AREA</u>	<u>PURPOSE</u>	<u>AMOUNT</u>
Boston	Fixed Guideway Mod.	\$ 532,627
Rhode Island	Bus Maintenance Facility	170,000

FTA REGIONAL OFFICES

The 10 FTA Regional Offices listed below work with local transit officials in developing and processing grant applications. For more information about the FTA program in general, please contact the Office of Public Affairs, Federal Transit Administration, 400 Seventh Street, S.W., Washington, D.C., 20590 or call (202) 366-4043.

EASTERN AREA

Region 1

Connecticut, Massachusetts, Maine, New Hampshire, Rhode Island, and Vermont.
FTA Region 1 Office, Kendall Square, 55 Broadway, Suite 920, Cambridge, Massachusetts 02142-1093.
Telephone (617) 494-2055 Fax (617) 494-2865

Region 2

New York, New Jersey, and Virgin Islands.
FTA Region 2 Office, 26 Federal Plaza, Suite 2940, New York, New York 10278-0194.
Telephone (212) 264-8162 Fax (212) 264-8973

SOUTHEASTERN AREA

Region 3

Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, and West Virginia.
FTA Region 3 Office, 1760 Market Street, Suite 500, Philadelphia, Pennsylvania 19103-4124.
Telephone (215) 656-6900 Fax (215) 656-7260

Region 4

Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, Puerto Rico, South Carolina, and Tennessee.
FTA Region 4 Office, 1720 Peachtree Road, NW, Suite 400, Atlanta, Georgia 30309-2439.
Telephone (404) 347-3948 Fax (404) 347-7849

CENTRAL AREA

Region 5

Illinois, Indiana, Minnesota, Michigan, Ohio, and Wisconsin.
FTA Region 5 Office, 55 East Monroe Street, Suite 1415, Chicago, Illinois 60603-5704.
Telephone (312) 353-2789 Fax (312) 886-0351

MIDWESTERN AREA

Region 6

Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.

FTA Region 6 Office, 524 E. Lamar Street, Suite 175, Arlington, Texas 76011-3900.

Telephone (817) 860-9663 Fax (817) 860-9437

Region 7

Iowa, Kansas, Missouri, and Nebraska.

FTA Region 7 Office, 6301 Rockhill Road, Suite 303, Kansas City, Missouri 64131-1117.

Telephone (816) 523-0204 Fax (816) 523-0927

Region 8

Arizona, Colorado, Montana, Nevada, North Dakota, South Dakota, Utah, and Wyoming.

FTA Region 8 Office, Columbine Place, 216 Sixteenth Street, Suite 650, Denver, Colorado 80202-5120.

Telephone (303) 844-3242 Fax (303) 844-4217

Region 9

California, Hawaii, Guam, American Samoa and North Marianas.

FTA Region 9 Office, 201 Mission Street, Suite 2210, San Francisco, California 94105-1800.

Telephone (415) 744-3133 Fax (415) 744-2726

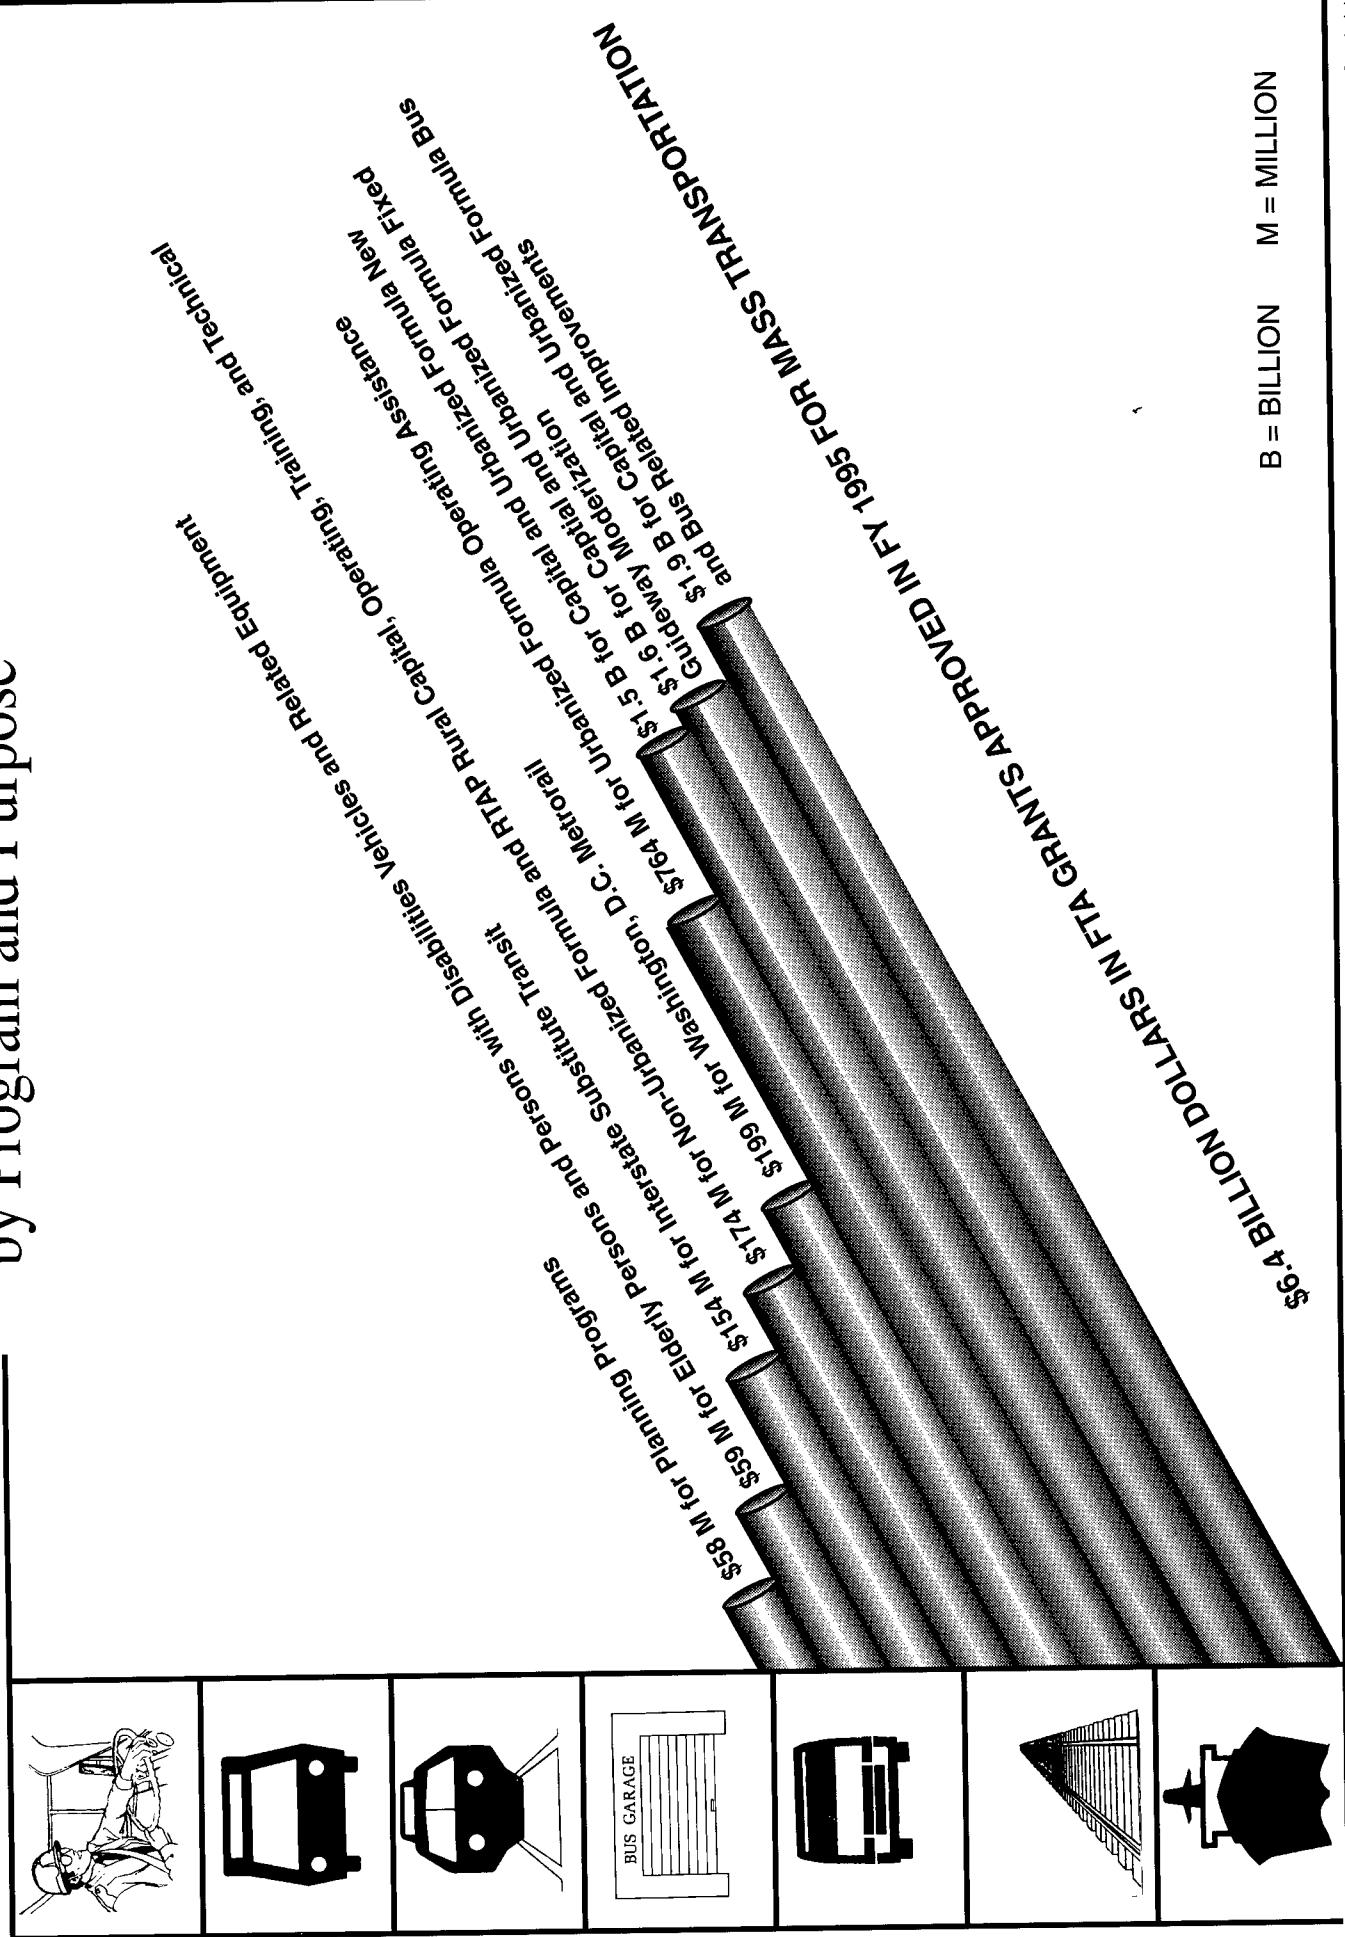

Region 10

Alaska, Idaho, Oregon and Washington.

FTA Region 10 Office, 915 Second Avenue, Suite 3142, Seattle, Washington 98174-1002.
